Customer Reviews

I read Ann McCaffrey's books when I was in high school and loved them then. I ordered the Dragon Riders of Pern and still love them. Now she has a book that explains the beginning of the stories. Because this book and others are prequels they seem to go slowly because I'm trying to become familiar with the new characters and see how they relate to the characters from the earlier books. I had to buy a book to tell me in which order to read the series. I never had to do that before.

I purchased this book as a guide to reading Anne McCaffrey. I started reading her books years and years ago. Feel in love with her books when I was just youth (I'm much older and would like to go back to the start of her writing and look forward to using this book as my reference to some good fantasy reading.

Helpful for book order, but major mistake re. the plot of the Acorna series. Was wondering why I'd never read them and bought one only to find out that the description in this book is completely wrong. Glad I didn't pay for it. (And was able to return the Kindle book I bought by mistake.)

All of McCaffrey's series reading orders are available for free online - a ten second search will save you a buck.

If you are reading the dragonriders of Pern series, this book is excellent for reading the books in a chronological order. I will say that it's not necessary to do that because each can be read as a stand alone book.

This did not contain the Pern order suggested by Anne McCaffrey which was the order written. It includes Pern stories written by her son and they are not separated from those written by Anne

I um ya this is ok. But you have to do all the work. I have the books n can look at the Last one to get a list same as this. It is not as helpful as it wants to be.

Very helpful in sorting out the many stories of each group of wonderful books, Perm and the Ship that Sings among the best.i
