# Color Atlas And Synopsis Of Clinical Ophthalmology - Wills Eye Institute - Uveitis

## Synopsis

This informative volume is part of the Color Atlas and Synopsis of Clinical Ophthalmology series, developed at Philadelphia's famed Wills Eye Institute. This exemplary series combines abundant, high-quality illustrations with a summary approach to the text to provide students, residents, and practitioners in all the healthcare professions with an up-to-date clinical overview of the major areas of ophthalmology. Each volume in the series addresses a specific ophthalmic subspecialty: Cornea, Retina, Glaucoma, Oculoplastics, Neuroophthalmology, Pediatrics, and Uveitis. Uveitis is a single-volume, easily accessible resource covering all the major aspects of ocular inflammatory disease, with information presented in a clear, straightforward format consistent with other volumes in the series. Improve the way you diagnose and manage inflammatory ophthalmic disease. • Structured coverage of each disorder includes sections on epidemiology and etiology, history, physical examination, differential diagnosis, laboratory and special examinations, diagnosis, prognosis, and management. • More than 450 full-color illustrations detail the clinical features of each disorder, illustrate pathogenesis, and assist in visual diagnosis. • Complete coverage includes both the ocular AND systemic manifestations of each disorder to provide a more complete clinical picture. • A companion website includes fully searchable text, as well as a complete image bank for quick reference.

## Book Information

Series: Color Atlas and Synopsis of Clinical Ophthalmology

Paperback: 336 pages

Publisher: LWW; Pap/Psc edition (October 20, 2011)
