North American Forest And Conservation History: A Bibliography

Synopsis

Ronald J. Fahl has compiled a milestone reference work, one that offers historians and other interested scholars for the first time a reliable and comprehensive access to the widely scattered written materials that reveal the history of forestry, forest conservation, and forest industry in the United States and Canada. Sponsored by the Forest History Society and funded in part by a major grant from the National Endowment for the Humanities, this volume covers published scholarly books and writings from many sources containing significant historical matter, including lumber trade journals, professional forestry journals, conservation magazines, government publications, state and local histories, autobiographies, and oral history interviews.
