Customer Reviews

Excellent, easy to read, easy to apply principles for creating sanity in a chaotic world of step families! Who has the mental strength or time to wade through psychology books and in-depth reviews of relational studies when they are drowning in the everyday realities of living in a step

family? Katz pulls it all together in an easy to apply and understand process to reclaim your sanity. Katz doesn't sugar coat the realities of step kids, biological kids, step parents, biological parents, and ex-spouses. The intricate and delicate balance of these relationships can be anywhere from tolerable and business-like to all out personal warfare. She effectively allows the reader to feel 'justified' in their "feelings" while helping the reader find proper ways to "handle" those feelings in their attitudes, actions, and behaviors. Katz brings to light the fact that some of the stereotypes of stepmothers and their relationships with ex's and step kids are based in truth but most of them are based in anger and bitterness at the situation - not the new parent. She points out that we, individually, are not going to change the world's stereotypical view of stepmothers but we are responsible for our own actions when it comes to our biological and step family. The "other" person may never change (whether it is the spouse, the kids, or the ex) but we, as stepmothers, can learn to "survive" and hopefully thrive in our new family by how we handle our own attitudes and behaviors toward the situations. Katz offers insights into "steps" we can take to build our own character and take care of our own emotional well-being so we can be of benefit to our spouse and children in handling life's challenges. We cannot change anyone else - only ourselves.
