Customer Reviews

This is a necessary read for anyone in a stepfamily relationship OR contemplating entering into a stepfamily relationship. Some reviews say that the material is limited to only Christians. I would simply say that, if a book provides insight into the unique and complex dynamics associated with stepfamily relationships, I wouldn't care so much whether it's from a Christian or some other perspective. I just need help...regardless of the perspective! Read it and then make your own decision. It has the potential to be life-changing, in my opinion. I have been married for 30 years in a stepfamily relationship and I believe this is a treasure trove of insight that I wish I had available back then. We could've avoided some of the land mines and pitfalls. Thankfully, we have survived and are implementing these principles as we move forward!

Bought it for a parenting class we are taking. This guide is to be used while following along with videos.

I like that it follows the book and gives a chance to really get more in depth on the topics.

This whole program is life changing. You must do it. Order the video series

We use this fantastic material in our step-families ministry.
