There are self-reflective exercises here to help you be proactive and empowered. This isn't just another "how to" book. You don't need to act-out in any way that is not true to you. Here you'll learn just how to be yourself but be your best self. We'll take you into the world of the healthy-male that you may have never been exposed to. This will open new vistas for you both as a woman and as a partner for a strong and healthy partner in the most loving and fulfilling relationship of your existence and in this life. You'll learn how to stop changing for unhealthy men and become the woman a healthy man always wanted. Not by being someone else but by being the best woman with a whole life. You'll learn how to have such a passion for life and yourself that the right man will be automatically attracted to you. Not only will he stay, but he'll actually bring something to the table. This is the most comprehensive book you'll read on the subject.

5 reasons to buy this book:

- You will improve your knowledge of men's psychology
- You will become much more attractive for healthy men
- You will feel more confident interacting with men
- You will learn how to be a girlfriend any guy dream of
- You will know how to keep a man interested without playing games
- Your dating life will become incomparably richer

Customer Reviews

It's a really smart guide. It ruins the myths about relationships and gives helpful tips. It also helps to better understand the psychology of men. I found a lot of new information there. And one more thing the tips are really practical. This book runs about the things that can happen in the real life, not in some romances. To my mind, it is worth reading.

Dating is sometimes harder than it should be. After countless dinners and drinks, it can be tempting to throw in the towel and resign to nights of forever watching Netflix alone in your bed. But when dating is done right, it can be amazing, and those great dates often lead to great relationships. In this book you will find all the information you need to survive the first date and make sure there's a second one. Don't let a man become the center of your universe. If you make a man your whole life, he's going to lose interest because he will most likely feel smothered! I love reading dating and relationship books, and often learn something new from each one I read. After reading this book, I love it and found it incredibly useful. Anyone who has ever been frustrated about the dating experience will love the various things covered in the book. A lot of information is research-based, and he talks about eye contact, flirting, compliments, first dates, sex, and everything that matters in dating. If you are looking for a great dating guide that can help women stop making the same mistakes we've been making for centuries, this book is a great resource.

Dating is sometimes harder than it should be. After countless dinners and drinks, it can be tempting to throw in the towel and resign to nights of forever watching Netflix alone in your bed. But when

dating is done right, it can be amazing, and those great dates often lead to great relationships. So consider this your dating playbook, with all the information you need to survive the first date and make sure there's a second one. I know it helped me a lot. Highly recommended.

The book will be interesting to think of women as a title of the book , and so it is clear that the target audience - women. In the book you will find recommendations that will make your sex life a little better . I bought it only because I was collecting material for his scientific articles. Yes , the book can not contain scientific study researches , but still some sort of useful information there

It's kind of weird that I am reviewing this book because I am a guy and I basically read it out of curiosity. To be honest I wasn't disappointed because the book had some great tips from a woman's point of view. The book is short but covers all the important stuff. The language of the book is very easy to understand. Overall, I recommend this book.

After being in a long term relationship I'm back in the dating scene and I find it's definitely different compared to when I was younger. Felicia explains the proper behaviors the girl should be doing during the dates and how to act which was some very interesting insight. What I like about her insight is she doesn't play any games so I can be myself but still activate the attraction switches of the man.

The author was very honest and straight forward about what really woman should be in our generation. I have learned that being who you are really attracts men that you want to be with in your life. Be yourself and love your life and everything will follow.
