Customer Reviews

I would not have bought this if I had known it was the incorrect edition. No where in the title of the item nor in the description did it say it was the 2nd, versus the 3rd edition. Had I not already written in it for class I would have surely returned it and got my money back.

I never received my order and was never notified that it was not being mailed to me until I wrote a letter to the shipper and still received no response from the shipper. It wasn't until I contacted that I got assistance and found out that the shipper was unable to send me the textbook. After I finally got in touch with , I found out that I wasn't going to get the book, and helped me reorder. It is only unfortunate that I won't get my shipment in time for the first day of classes even though I planned and ordered the textbook way in advance.

I was expecting a book completely beat up since I only paid 2 bucks and 6 cents for it but it was BRAND new with just a mini fold in the back corner of the book! It arrived really fast too! Great buy! My school charged \$70 for the same item!

I ordered these books for college at a very reasonable price. As all of my purchases from .com, I received them in a very timely manner of about three days. The books were in excellent condition. I recommend everyone order their college books through as I am very satisfied.

This guy didn't even ship me my stuff! Luckily didn't charge my credit card because it didn't ship. It was like my order was completely ignored and it caused me to not have the book on the first day of class.
